# Instructions for Authors

**NOTE:** *Please read these instructions carefully—technical deficiencies must be corrected before manuscripts can be reviewed.*

Send manuscripts by first-class mail to Byron J. Bailey, MD, Chief Editor, *Archives of Otolaryngology—Head & Neck Surgery*, Substation 1, PO Box 103, Galveston, TX 77550. Phone: (409) 765-9040. Manuscripts are received with the understanding that they are not under simultaneous consideration by another publication. Accepted manuscripts become the permanent property of the ARCHIVES and may not be published elsewhere without permission from the publisher (AMA).

**Any manuscript, Letter to the Editor, or other material sent for publication must be accompanied by a letter containing the following language: "In consideration of the American Medical Association's taking action in reviewing and editing my submission, the author(s) undersigned hereby transfers, assigns, or otherwise conveys all copyright ownership to the AMA in the event that such work is published by the AMA." We regret that transmittal letters not containing the foregoing language signed by all authors of the submission will necessitate delay in the review of the manuscript.**

In case the work was done by a federal employee, each author must include a signed statement that the work reported was done while he or she was employed by the federal government.

**Author Responsibility.**—All accepted manuscripts are subject to copy editing. The author will receive an edited typescript and layout rather than galley or page proofs for approval. The author is responsible for all statements in his work, including changes made by the copy editor.

**Title.**—Titles should not exceed 75 characters, including punctuation and spaces.

**Title Page (First Page).**—The title page should include all authors' full names, highest degrees, academic affiliations, and, if the manuscript was presented at a meeting, the name of the meeting, the place it was held, and the date on which it was read. One author should be designated as corresponding author, with his or her name, address, and telephone number. Specify the address to which requests for reprints should be sent. Order reprints at the time the typescript is returned after editorial processing.

**Abstract (Second Page).**—Provide a double-spaced abstract (135-word maximum) of the article. The abstract should include statements of the problem, method of study, results, and conclusions. Do not include a "summary" section in the main manuscript.

**Manuscript Preparation.**—Submit the original typed manuscript plus two high-quality copies of the entire manuscript. *The entire manuscript, including abstract, references, legends, and tables, must be typewritten, double-spaced, on 21.6 × 27.9-cm (8½ × 11-in) heavy-duty white bond paper. Ample margins of at least 2.5 cm (1 in) should be provided. Do not justify the right margin if a word processor is used.*

**References.**—List references, double-spaced, in consecutive numerical order (the order of citation in the manuscript, not alphabetically). Once a reference is cited, all subsequent citations should be to the original number. All references must be cited in the text or tables. Unpublished data and personal communications will not be accepted as references. References to journal articles should include (1) authors, (2) title, (3) journal name (as abbreviated in *Index Medicus*), (4) year, (5) volume number, and (6) inclusive page numbers, in that order. References to books should include (1) authors, (2) chapter title (if any), (3) editors (if any), (4) title of book, (5) city of publication, (6) publisher, and (7) year. Volume and edition numbers, specific pages, and name of translator should be included when appropriate. The author is responsible for the accuracy and completeness of the references and for their correct text citation. Please note this journal's punctuation and sequence style preference in previously published reference listings.

**Legends.**—Legends should be typed double-spaced, beginning on a separate sheet of paper from the text. Length should be limited to a maximum of 40 words. Magnification and stain used should be provided when pertinent. All photographs and illustrations documenting any postoperative change must be labeled as to the postoperative interval. The label of "postoperative" is insufficient by itself.

**Tables.**—Each table should be typed double-spaced, including all headings, on a separate sheet of 21.6 × 27.9-cm (8½ × 11-in) paper. Do not use larger paper. If a table must be continued, use a second sheet and repeat all heads and stubs.

**Consent Forms.**—Manuscripts reporting the results of experimental investigations of human subjects must include a statement to the effect that informed consent was obtained after the nature of the procedure(s) had been fully explained.

A letter of consent must accompany all photographs of patients in which a possibility of identification exists. It is no longer sufficient to cover the eyes to mask identity. If a photograph is of a minor, then *both parents must sign* the consent form.

Refer to patients by number (or, in anecdotal reports, by fictitious given names). Real names or initials should not be used in the text, tables, or illustrations.

**Illustrations.**—Submit illustrations in duplicate, unmounted, untrimmed, and 12.7 × 17.3 cm (5 × 7 in). Send high-contrast glossy prints (not photocopies). Figure number, name of senior author, and arrow indicating "top" should be typed on a gummed label and affixed to the back of the illustration.

Illustrations in full color are accepted for publication if the editors believe that color will add significantly to the published manuscript. The ARCHIVES will pay part of the expense of reproduction and printing color illustrations, the remainder to be borne by the author or his sponsor. After deducting the ARCHIVES' contribution, the author's share is \$400 for up to six square-finished illustrations that can be arranged on a one-page layout. Any additional illustrations or special effects will be billed to the author at cost. Positive color transparencies (35 mm preferred) must be submitted for an evaluation. Do not send color prints unless accompanied by original transparencies. Do not submit glass-mounted transparencies.

**AMA Manual for Authors and Editors.**—This 1981 edition, formerly the *Stylebook/Editorial Manual of the AMA*, is available from Lange Medical Publications, Drawer L, Los Altos, CA 94023. Single copy price: \$13. Discounts are 10% for three to five copies and 15% for six or more copies. A shipping charge is added on all orders.

## PLEASE NOTE: MOST COMMON ERRORS TO AVOID (SECRETARY'S CHECKLIST)

- (1) Failure to send original typed manuscripts plus two copies.
- (2) Failure to double-space entire manuscript (abstract, references, legends, and tables).
- (3) References not in proper format, not in numerical order, or not cited in text.
- (4) Use of 1½-spacing rather than double-spacing. Do not justify lines.
- (5) Failure to send two sets of illustrations/photographs.
- (6) Title too long.
- (7) Failure to label abstract or to provide abstract.
- (8) Incomplete or improper consent forms for patient photographs, improper legends.
- (9) Failure to include copyright transmittal letter.
- (10) Failure to include all authors' personal signatures on copyright transfer form.
- (11) Failure to designate the corresponding author and provide phone number and address.
- (12) Failure to get consent forms for illustrations previously published elsewhere.
